Dear Katharina,

As a full-stack developer with over a decade's experience looking for an opportunity to apply my skills in new ways, I would love to bring my expertise and enthusiasm to your growing development team and help ePages with upcoming challenges.

Everyone knows me as a solution provider who has no limits, interested in re-engineering processes and keeps solutions simple with attention to detail. Simplicity is the ultimate sophistication. I can offer you experiences, creativity plus a great eye for detail, which make me an ideal candidate for ePages.

In conclusion, I pen down saying that attaining a prosperous life is plausible only when state-of-the-art applications are in use. I have experienced working with incredible teams as a player or manager, and I have learned how to learn fast and get on with the team. Hence, being a team member of ePages would drive me to make this dream come true and start an exciting new adventure.

Thank you for taking the time to review my credentials and accomplishments. I look forward to hearing back from you to learn more about the software developer position at ePages and share adequate details of my experience and motivations.

Sincerely,
Javad Adib

P.S. - I hope to have an opportunity to show the team firsthand what an asset I can be.
